TRAINING TECHNOLOGIES

### SureStrike dry fire training system!

SureStrike is a dry fire training system that emits a split second laser beam simulating bullet impact point;

Build and maintain firearms skill with the safest, most versatile, and most cost effective dry fire training system available today.

**Firing pin activated!**

**[www.laser-ammo.com](http://www.laser-ammo.com)**

The Replacement Action Cap is a microprocessor controlled primer activating the SureStrike laser cartridge. By using exchangeable action caps, you can decide which functionality is most suitable for your training. This feature makes SureStrike the most versatile dry fire training system available today.

**Price: \$34.99 each model**

### Dry Fire

Perfect for enhanced dry fire practice with point of impact recognition/feedback, 5000 "shots" guaranteed.  
**Item number: 9MDF**

### Digital Bore Sight

Converts the SureStrike into a digitally controlled bore sight activated by trigger pull, featuring convenience and efficient battery use.  
**Item number: 9MDB**

### Extra Duration

A longer duration of laser pulse allows you to notice unwanted hand movement in order to perfect trigger control, stability, and grip. Enables advanced technique analysis.  
**Item number: 9MED**

### Bullet Counter

Pauses after every 15 "shots" for 3 seconds to simulate running out of ammunition and magazine change.  
**Item number: 9MBC**

### Simulator Activator

Enables the SureStrike to interface with some of the market's leading simulators that use a visible red laser and a 30fps camera.  
**Item number: 9MSM**

### Target Activator

Activates Beamhit / MPRI digital targets.  
**Item number: 9MTA**

### Black Carrying Case

Hard shell case with nylon covering, fitted foam inserts, and heavy-duty zipper to carry all SureStrike kit parts.

**Price: \$11.99**  
**Item number: BLKCC**
